

A CARDIAC EVENING

featuring Tracey and Pat!

Thursday 3rd October. 7.30 pm.
T S Dianthus, Goldsworth Park

Specialist nurses Tracey Bradshaw and Pat Little will be updating us on latest developments in arrhythmia and heart failure treatment.

Tracey, a Heart Failure Specialist Nurse is well known to many HeartBeat members as she has spoken before at HeartBeat and enthusiastically followed our progress for many years and was at one time a familiar face on the CCU!

Pat (on the right) is an Arrhythmia Specialist Nurse and she will be talking about “investigations in cardiology such as Echos, angiograms and ECGs”. And Tracey will be updating us on all sorts of things (but that’s what Tracey does!!)

This promises to be a most interesting evening not to be missed, especially by us ‘former’ heart patients.
