

Age-related Macular Degeneration

Thursday 4th October. 7.30pm. T S Dianthus, Goldsworth Park
Guest Speaker: Stella Black – Regional Manager, The Macular Society

The Macular Society is the leading charity fighting to end sight loss caused by macular disease.

Every day over 200 people in the UK face the shock of a diagnosis of macular disease. This sight loss can rob people of their independence, leaving them unable to drive, read or recognise their family.

Stella Black will explain how the Society helps people adapt to life with sight loss, regain their confidence and independence, and take back control of their lives.

They fund the research that will one day find a cure. Their work is solely funded by generous donations.
